## *Foreword*

Our Agricultural Fair has been progressing very favourably over the Past few years and we are hoping for this program to continue. Your participation by bringing exhibits, attending the fair and in general showing interest will make this possible.

With grain restrictions, interest in livestock is, and should be growing. Success in livestock production can be had only by producing good quality animals. Better breeding and grading, eliminating the boarders from the herds. Interest in better stock can be created by showing at the fair. A greater number of livestock exhibits is essential for the progress of the fair.

Continued support is required for our 4-H Clubs. Their participation has been a great factor in the progress of the fair. They are doing a splendid job; let us all assist them in their efforts in building better citizens for to-morrow.

MRS. E. L. JOHNSON
